Presentations:
A. Presentation of possible services that Dona Ana County would be able to provide the City
   of Anthony. Presented by Trustee Betty Gonzalez, Dolores Saldana-Caviness, Dona Ana
   County Commissioner and Chuck McMahon, Dona Ana County Community Development
   Director. Commissioner Dolores Saldana-Caviness and Chuck McMahon of Dona Ana
   County were present and provided the Board of Trustees with information regarding
   possible services the County would continue to provide. Trustee Betty Gonzalez gave
   them as list of questions to use as a guide to some of the issues the City wanted to
address. The county was willing to consider MOU's and JPA's for some of the services. For the 911 service the City could call Hugo to provide the 911 service cost which would depend on the number of calls coming in from Anthony. The call volume would be determined at a cost of $8.90 per call and it may take $60,000 to contract with MRVDA (Mesilla Valley Regional Dispatch). For animal control services the city would have to contact that entity because it was not a county department. In addition, the solid waste was also not a county department. On issue that the county could continue to assist with would be to service the parks and maintain roads and county buildings until December 2012.

For Building permits, the city should adopt the county building code and then enter into an agreement similar to the one Hatch has with the county. Mr. McMahon indicated that the ball park on O'hara Road was a county park and would continue to maintain it. For law enforcement, the Sheriff's Dept. would continue to enforce state statues but not City ordinances within the city limits. Trustee James Scott asked if the sheriff's Dept. would be filing cases in Municipal or Magistrate Court.

Trustee Betty Gonzalez asked if the county would be able to assist the City with its first election. Mr. McMahon stated that the city should contact the County Clerk.

The county owned arroyos would continue to be serviced by the county but the county would be unable to clean those who were privately owned. The Clean and Beautiful grant was available to help clean the arroyos. In addition, Mr. McMahon stated that the Office of Emergency Management could assist the city through their All Hazard Mitigation Plan with their concerns. The Mitigation Plan was available online. Trustee Betty Gonzalez asked if the city could obtain information on the ownership of the privately owned and county owned arroyos by the way of an ownership map from the County.

Trustee James Scott discussed the approved zoning map. He requested permission to address Denise to get a zoning map and asked if an electronic format of the map could be provided to the city. Mr. McMahon stated the city needed to adopt a zoning and subdivision ordinance and the city could contract with the county through an agreement for the GIS Addressing service.

Commissioner Saldana-Caviness stated that the Southern Regional Transfer Station was in the works and they were looking into Anthony as a site. She also mentioned that if the city needed equipment and vehicles they should consider going through GSA (Government Service Administration).

Trustee James Scott commented that he was working on putting together a database to use for the solid waste disposal and the county was working on getting a price control on fees paid by residents for trash collection services.

Presentation ended with Commissioner Saldana-Caviness thanking the City for their invitation to present and mentioned that the transfer station had the swipe device for
accepting debit cards. In addition, the county was working on getting the solid waste coupon to be available at the Anthony Water and Sanitation location.

B. Presentation on Roadrunner Food Bank. Presented by Art Fine. Mr. Fine informed the Board about the service that Roadrunner Food Bank provided throughout New Mexico. He commented that anyone was welcome to help through various means such as educating themselves about hunger, volunteering at local food banks, donating money, supporting local farmers by shopping at farmers markets, and advocate in matters of public policy that impact poverty and access to food. He further stated that he would welcome the City's support in establishing a food bank in the city.
